2nd Annual
Goodwill Fire & Rescue Challenge
August 12, 2000 8:30am
Lakeshore Park Knoxville, Tennessee

The challenge is approaching quickly! As a matter of fact it will be this Saturday at Lakeshore Park. The challenge includes competitive events in Fire, Rescue, and Explorer Divisions. Also featured will be over 20 vendor booths, apparatus muster, kids activity tent, clowns, door prizes and equipment demos and displays. The event is free for spectators. Apparatus muster entries are also free and do not require participation in competitive events - so please send your apparatus to compete. Trophies will be given in both fire and rescue apparatus categories. It is not too late to register your team either. The cost for fire teams is $100, while rescue and explorers are $50. All teams are based on a minimum of five people. We are also in need of volunteers to help. Please see the sponsors and contacts below. We would really like to see you at the challenge.

The following is a list of teams as of 8/4/2000

Fire Rescue Explorers
Knoxville FD Knoxville FD Knoxville FD
Rural/Metro FD Rural/Metro FD Union Co. (TN)
Lost Hose FD (Cobb Co. GA) Knoxville Rescue Squad Morristown FD
Maryville FD Meiggs Co. Rescue Squad Rural/Metro FD

From: firecop_35
Topic: 1 Message: 11

Has anyone out there got the new frequencies and layout for Metro Nashville's new trunking system. Any input would be appreciated. Also even tho they have moved to a trunking system they are still licensed on the old frequencies, they are useing them for a chit chat channel ... which sometimes can be more intresting to monitor. Good luck and happy monitoring.

> Does any one know these medical helicopters frequencies ?

I have many experiences with having to handle LZ's here in our
county, and every time the birds fly in they have always contacted on
our County's frequency or Statewide Medical 155.205. I know that the
birds have called into their base hospitals or the hospital they are
flying to via the med frequencies 155.340. So you might want to
monitor these frequencies. I will dig a little further and try to
find the comm frequency that each hospital uses for direct
communication between their crews, however understand that you might
not hear these communications because of the ground interfearence.
The reason the helicopters have no problem is because their antennas
are hundreds of feet in the air so they have no ground interfearence.

I'll post the hospital frequencies once I find where I have stored
them. I hope what little info I have posted is of some help.

24. Vanderbilt LifeFlight , Memphis Wings, and Airevac helicopter frequencies

Yahoo group: tnscanningclub
Date: 2003-09-09 21:06:42 UTC
From: redbird1902
Topic: 22 Message: 24

In Memphis and surrounding counties 155.205 and 155.340 are used to talk to the ground units and while the chopper is enroute, as the previous poster said. 155.280 is used by Medcom to dispatch the chopper, give GPS readings, and relaying medical info to the chopper and to the hospital. Lot of good info on this one.

25. Link to Frequencies

Yahoo group: tnscanningclub

From: firecop_35
Topic: 25 Message: 25

Here is a link to a sorce to find alot of frequencies to specific states and cities. http://www.cityfreq.com Hopefully this might help a little in everyones frequency searches. They list frequencies and users generally. It will be up to you however to sort out as to what the applications the particular frequencies are used for. Good luck all.

City freq is terribly inaccurate. It is a dump of the
FCC database, and lists the company licensing the
user first. That company is often states away.

Use www.fcc.gov/e-file and go to general menu
reports. Great stuff!

From: reymun2003
Topic: 30 Message: 30

Hello;
I'm from Bristol Tennessee. I'm on SSD and most of the time I listen to my scanner. Most of the frequencies that I have are of Sullivan County and Bristol Va. I'm looking for Bristol Tn. and the THP in this area. Also VSP. I live about 6-8 miles from the race track and was wondering if anyone might know is I could pick up any of the Frequencies of the cars when their at Bristol.

Thanks,

Reymun

31. TVA plans emergency response drill this week for Sequoyah plant

TVA plans emergency response drill this week for Sequoyah plant

By Candice Combs Staff Writer

Chattanooga residents shouldn't be alarmed Wednesday if they notice emergency vehicles responding to the Tennessee Valley Authority's Sequoyah Nuclear Plant.
"Every nuclear site has to go through an emergency response test," said Capt. Trey Brannom with the Tennessee Emergency Management Agency. "It helps exercise the different parts of an emergency response."
Beginning at 9 a.m., TVA officials will cooperate with local, state and federal safety personnel in a mock emergency at the nuclear plant, according to Chief Ken Wilkerson with Hamilton County Emergency Medical Services.
"We have to practice to make sure everything works," Chief Wilkerson said.
The simulation is meant to improve communications should the area have to be evacuated, Capt. Brannom said. Passersby should expect to see an emergency command center, police cars and possibly firetrucks and ambulances.
"Oftentimes when you have an emergency, the ambulance driver or firefighter knows what to do because he does it everyday," Capt. Brannom said. "The part that doesn't get exercised on a daily basis are management and coordination. We could have a situation where Bradley County's fire department needs to talk to Hamilton County schools."
The drill is expected to last most of the day Wednesday.

From: Memphs38122@aol.com
Topic: 39 Message: 39

Ron,

I know Memphis is APCO 25 and has been for several years now and it doesnt look like they will go back to the old system in the future. I know when the new digital trunked scanners came on the market they were not capable of receiving Memphis's trunked system. I know alot of people who bought them and were disappointed to find out that they couldnt receive Memphis. I havent kept up with the new digital scanners, since I dont plan on buying one. I have capabilites of listening to the city agencies and dont see sence of buying a scanner due to that.

Currently the only that can be heard is MFD on the vocals at 855.2375. Other than that, your not going to hear anything. I have been able to pick up MFD vocals while in McKenzie Tn before while traveling, which was very shocking

Now dont hold me to this, but I beleive MFD and MPD are encrypted, PW and City Services are not.

If one wants to listen to MFD you can go to www.firemuseum.com and listen to MFD on there, there is a 20 sec delay, so what you hear happened 20 seconds ago. You will only hear A1 Fire 1 on that website, A2 Fire 2, A3 EMS 1, A4 EMS 2, Talk Groups and CTC can only be heard via city radios

[Non-text portions of this message have been removed]

I know when the new digital trunked scanners came on the market they were not capable of receiving Memphis's trunked system. I know alot of people who bought them and were disappointed to find out that they couldnt receive Memphis. I havent kept up with the new digital scanners, since I dont plan on buying one. I have capabilites of listening to the city agencies and dont see sence of buying a scanner due to that.

Currently the only that can be heard is MFD on the vocals at 855.2375. Other than that, your not going to hear anything. I have been able to pick up MFD vocals while in McKenzie Tn before while traveling, which was very shocking

Now dont hold me to this, but I beleive MFD and MPD are encrypted, PW and City Services are not.

If one wants to listen to MFD you can go to www.firemuseum.com and listen to MFD on there, there is a 20 sec delay, so what you hear happened 20 seconds ago. You will only hear A1 Fire 1 on that website, A2 Fire 2, A3 EMS 1, A4 EMS 2, Talk Groups and CTC can only be heard via city radios

42. Shelby County, TN EDACS

Yahoo group: tnscanningclub
Date: 2005-02-04 05:32:10 UTC
From: tabasco38138
Topic: 42 Message: 42

The other day I heard this talkgroup that I had never seen before.
It was 15-141. It was being used for a special event. Has anyone
else heard this talkgroup before? Any info would be appreciated.

EDACS stands for Enhanced Digital Access Communications System. In Shelby County I believe it is used only in analog mode, but can be encrypted.

Shelby Co Sherrifs Dept using this system i assume, if that is so most is analog. Just making sure we are thinking of the same thing.

Sad think is, I live here and monitor alot, but i dont pay attention to the SCSO, to much garbage on there..

I mostly monitor Memphis FDs F1, Shelby Co FD, Bartlett FD Millington FD and Germantown FD.

Hard to say what 15-141 is, as you said im sure its strictly a Special Events talk group. Which would usually get very little use at all

I used to listen to SCSO a little, I got tired of hearing the Officers talk about their Jerry Springer life styles and them carry on conversations making fun of the citizens they had dealings with. Cursing and swearing was all to common. Trash if you ask me. Some of the things they would say on there was very unprofessional. Some real winners if ya ask me.

Not yet they are still using the oldest known version
of the digital broadcast. By the end of this they are
supposed to be piggybacked with Shelby County and then
you should be able to with the BC396t or Pro-96 from
Radioshack.

This campaign is about Human beings, Democracy, UNHCR, Refugees, The Iraqis, Islam, Kurds, Human rights, Respect, Money, Donations, Angelina Jolie, Pavarotti, Giorgio Armani, Donors, Peace, History, Campaigns and about you if you care about these words.

Hi there,

I am SAM, an Iraqi refugee living in Lebanon at the moment; I have spent the last 10 years of my life as a refugee registered with the UNHCR in Beirut. The last 4 years, I have spent as an activist for peace and human rights (especially refugees and asylum seekers) on the Internet; I'm also books author and ebooks publisher. I have launched many campaigns to improve our situation as refugees in Lebanon and hopefully bring more understanding to our problems worldwide. I helped make many changes and improvements at the UNHCR office in Beirut; I used the Internet as the field for my activities (you can read more about that in my free ebook 'MY CAMPAIGNS'). All my ebooks are free and could be download from my sites.

This is my newest campaign, it's about the illegal and humiliating actions of the UNHCR, who using photos of refugees as banners and human-buttons to collect money. This is an abuse of the dignity and humanity of the refugees and must stop immediately and a clear public apology present by The United Nations High Commissioner for Refugees. My friends, I am talking about the pictures you can see here: http://un4.pochta.ru

Also you can read my new campaign 'Urgent, we need smile' here:
http://www.psend.com/users/unhcrlebanon/email_me.htm

For more info about UNHCR and life of refugees you can read my free ebooks. I invite you as fellow humans and members of the world community to support my campaign by reading my article on my site and see the human-buttons. The campaign is to support and improve the UNHCR http://www.unhcr.org especially after the last scandals in the UN and UNHCR, just for example: http://www.mizzima.com/archives/news-in-2005/news-in-april/12-April05-22.htm

"We make demonstration and fast because the UNHCR office in Cairo did nothing for our problem..." http://news.bbc.co.uk/2/hi/africa/4440730.stm

Together we will build better world.

You could reach me fast via this form: http://lebanon.angelcities.com/email_me.htm
and if you like to know more about me, you can google for my name 'osam altaee'.

Thanks
THE TRUTH WARRIOR

> Hello,
> I had just joined this group and hope it is still active.Years ago I was very into scanner radios and owned a Pro 2006,which I miss a great deal.I had at the time purchased 3 of Bill Cheeks scanner mod books.Unfortunately,last eve I was looking for a particular page and find out the "Ultimate scanner 3" book now has several missing pages.I was pretty angry knowing who I had last loaned it to years back.My question is this...does anyone have this book and can send me page 66?I am not positive this is the page,but it is the one where there is a schematic of a 2 transistor crystal oscillator.This was one of the best oscillators I had ever built and want to make another.Any help would be greatly appreciated.

Topic: 133 Message: 133

Do anyone have any fire tone out alert frequencies. I have a BCT15 X and want to try the fire tone out option.

Thanks

Garry Jones
